

Frequent changes in tax and accounting policies can affect a company's business operations. Timely updates not only help the company comply with regulations but also optimize costs and improve the efficiency of financial management and business activities.

To stay informed about the important changes in the tax and accounting systems in 2024, KMC's seminar program not only provides detailed information on new regulations but also helps businesses understand how to apply the documents in a way that suits their practical situation.

## PROGRAM CONTENT

Language: Vietnamese

1. Update on regulations related to Corporate Income Tax (CIT), including tax incentives and deductible expenses as per regulations.
2. Update on regulations related to VAT, contractor tax, Personal Income Tax (PIT), etc., that businesses need to apply appropriately.
3. Update on VAT reduction policies and tax payment extensions for 2024.
4. Explore upcoming changes in tax policies (CIT, VAT) and accounting in the near future.
